

SALINAS UNION HIGH SCHOOL DISTRICT

No Shots No School

Assembly Bill 354 is a new vaccine law that requires all California middle school and high school students to be vaccinated against pertussis (whooping cough). Beginning fall 2011, all 7th – 12th grade students need proper documentation of a Tdap vaccine on or after their 7th birthday before they will be allowed to enter school in the fall. After this year, vaccination documentation is only needed for 7th graders. Questions? Call Salinas Union High School District Health Services 796-7050
